

# STEELCOAT 300 SYSTEM

FOR SMALL/MEDIUM DIAMETER PIPEWORK AND FITTINGS  
(OPERATING TEMPERATURE -25°C to +60°C)

**A VERY FAST HAND APPLIED TAPE COATING REQUIRING NO PRIMER OR OVERPAINTING -DESIGNED FOR A 15 YEAR SERVICE LIFE**

✓ **MINIMUM SURFACE PREPARATION : HAND CLEANING** (see detailed surface preparation data sheet)

## Unrivalled Surface-Tolerant Coatings for cost effective long-term protection

Denso Steelcoat 300 System comprises a selected coloured petrolatum tape (Denso ColourTape) and a compatible neutral coloured mastic (Denso ColourTape Mastic) which is ideally suited for small to medium diameter pipes. No primer is necessary and application by hand or wrapping machine is quick and easy. The choice of tape colours gives an attractive finished appearance and is also ideal for colour coding when necessary. A clear adhesive tape (Denso Clear Tape) can be utilised as an additional outerwrap to provide plastic sealing properties and extra mechanical protection.

### Additional Benefits

- Faster to apply and much improved service life when compared to conventional paints
- Range of colours
- Exceptionally conformable
- Controlled thickness
- Attractive appearance
- Compatible mastic for sealing flanges and voids prior to tape application
- Can be oversealed with a second layer of clear adhesive tape
- Suitable for colour coding when required

Fast hand application of Denso ColourTape.

## Steelcoat 300 System Components:

**Denso ColourTape**  
**Denso ColourTape Mastic**

Optional Component:  
**Denso Clear Tape**

Technical data sheets are provided on request for each of the above components.

*Above: Application of Denso ColourTape Mastic - no primer necessary.  
Below: First section of exposed pipe and flange fully coated with the Steelcoat 300 System.*
