

## ARCHCO™ 400HB EPOXY

### High Build Two Part Phenalkamine Epoxy for Internal Tank Linings

#### Description

Archco™ 400HB Epoxy is a 85% solids two-part epoxy designed for internal tank linings. The coating has excellent low temperatures cure properties.

#### Uses

Corrosion protection for steel tanks and internal pipes in a variety of industries. The coating will protect tanks and piping against crude oil, seawater, wastewater, fuels, solvents, lubricants and acids. Archco™ 400HB Epoxy also has excellent resistance to ethanol.

#### Features

- High solids
- Very low permeability
- Cures at temperatures down to 35°F (2°C)
- Fast dry and set times
- High build up to 40 mils (1,016 microns) in one coat
- Excellent adhesion
- Tough abrasion resistance
- Cures under cool and damp climates
- Excellent undercutting resistance
- Good flexibility and impact resistance
- Good chemical resistance
- Excellent resistance to ethanol

#### Application

All contaminants shall be removed from the steel surface to be coated. Oil and grease should be removed in accordance to SSPC-SP-1. Surfaces shall be free from projections, sharp edges, high points and fillets must be ground smooth including all corners. Prepare surfaces by grit blasting to a clean near-white finish, SSPC-SP 10, NACE No. 2 or Sa 2-1/2. Appropriate angular grit shall be used to achieve a 3 to 5 mil (0.08 - 0.13 mm) anchor profile. Vacuum tank floor to remove grit prior to coating.

For larger areas the Archco™ 400 Primer/Sealer can be applied at 3 to 5 mils (0.076 to 0.127 mm) in thickness. To spray the Archco™ 400HB Epoxy a single leg airless unit can be used. On the single leg airless unit it shall be a minimum a 68:1 airless pump. A wet-on-wet spray technique should be used to achieve a minimum of 20 mils (0.508 mm) DFT. The coating thickness should be measured using a wet-film thickness gauge. For smaller areas and repairs Archco™ 400HB Epoxy brush kits can be used.

For complete application instructions please refer to Archco™ 400HB Epoxy Lining Application Specifications.
