

## SEASHIELD SERIES 100™

### STEEL, CONCRETE AND TIMBER PILE PROTECTION SYSTEM

#### SUITABLE FOR:

- Wharf Piles
- Riser Pipes
- Terminal Piles
- Jetty Piles
- Dock Piles
- Support Members, Bracing and Brackets
- Exposed Piping in Splash and Intertidal Zones
- Piles of Most Any Shape and More

# PILE PROTECTION SYSTEM WITH DENSO MARINE PILING TAPE AND AN HDPE OUTERCOVER SECURED WITH A STRAPPING SYSTEM

SeaShield Series 100 System provides splash zone protection for steel, concrete and wood structures. The system is ideal for environments where conditions are too severe for paint systems, epoxies and other conventional forms of protection.

## FEATURES:

- Minimal surface preparation required (no abrasive blasting)
- Fast and easy installation
- Can be applied underwater
- Proven over 90 years of history of corrosion protection with Denso Petrolatum Tapes
- One piece jackets
- High impact resistance in aggressive environments
- UV resistant
